Quarterly	School System	5
Month-long summer training	Other external influences	6
College Vision: To become a scientific institution comparable to government colleges in the field of legal and political studies leading to local and international academic accreditation. College Mission: Law is a necessity imposed by life in society. From this understanding, the college starts by providing the legal and academic labor market with scientifically and administratively qualified scientific competencies that keep pace with legal development in solving legal problems and able to compete in the field of contemporary legal issues, by focusing on scientific sobriety by an efficient and capable teaching staff, advanced scientific materials, and training activity, and this is part of the scientific mission of the college in community service in defending public rights and freedoms in the country.		7
Objectives of the academic program: 1. Develop curricula that enable the student to know the basic theories in all branches of law. 2. Developing and refining students' capabilities in creativity and innovation in the legal field aimed at serving the community. 3. Interest in scientific research to keep pace with development and modernity in the field of legal studies and promote the reality of authorship and translation.		8

4. Encourage faculty members to author, translate, and publish scientifically in the legal, political, and related sciences, with a focus on innovation and modernity, especially in electronic sciences and their relevance to legal development. 5. Expanding the horizons of cooperation with the Bar Association and the Supreme Judicial Council, providing integrated scientific training opportunities for students in various court levels.	
Teaching and learning methods: ▪ Giving lectures. ▪ Blended learning through e-lectures ▪ Educational films. ▪ Projectors (data show). ▪ Seminars and workshops. ▪ - Field visits.	9
Evaluation methods: ▪ Oral tests. ▪ Written tests. ▪ - Reports and studies.	10
